- Matters for caution in working out a research grants application and a research plan
 - Both independent and joint studies on subjects are possible for application.
 - The project team members who are the recipients of research grants from other research funding institutions on a certain research topic are not allowed to apply for grants or participate in the projects of the Research Grant Program with the same topic.
 - The area for research is confined to the Asian region.
 - In principle, the person in charge of the selected research is subject to presenting final study results at POSCO Asia Forum to be held in May 2013 (tentative plan).
 - ※ The expenses required for staying in Seoul to present at the POSCO Asia Forum will be provided by the Foundation, aside from the research grant.
 - All applications and research papers should be written in English (MS word or PDF format).
 - Application for research grants should be made in the designated form.
 - A research plan should be mapped out after referring to attached file. There is no specific form, but all clarified items should be included as possible.
 - Final research results are posted on the website of POSCO TJ Park Foundation.
