

COLLABORATION WITH NATIONAL UNIVERSITY OF MONGOLIA

The Management Development Institute of Singapore (MDIS), founded in 1956, provides courses, seminars and management services and opportunities for individuals to develop professionally through various academic programmes in Business and Management, Engineering, Information Technology, Life Sciences, Mass Communications, Psychology and Travel, Tourism and Hospitality Management.

I am writing from the International Management Department of MDIS which oversees and manages offshore operations. We are keen to develop collaborative partnership with reputable and like-minded universities and education bodies. To-date, we have forged several noteworthy collaboration with universities and educational bodies from China, India, Europe and etc.

Possible areas of collaboration could be:

Study Abroad at MDIS Singapore - considering the range of courses offered by MDIS and the strategic location of Singapore, we would like to be considered as a preferred partner for your Study Abroad Programme

Dual Certification/ Joint programmes - building on the Study Abroad Programme, a possible variation allows students receiving dual certificates via accelerated learning paths

Field Study for Postgraduate Students - with the teaching support of MDIS and hostel facilities available, a field study in Singapore would be seen as a unique feature of your postgraduate programmes

Articulation Agreement - articulation agreements enabling progression or transfer between National University of Mongolia and MDIS may also be established.
