

The PUT Energie- und Anlagentechnik GmbH, located in Germany, is an independent engineering and consulting company with focus on energy technology. For a feasibility study, carried out in Ulaanbaatar, we are looking for a

Local Student/Local Expert for feasibility study of District Heating in Ulaanbaatar

The European Bank for Reconstruction and Development (EBRD) intends to fund a feasibility study for district heating in Ulaanbaatar. The study comprises technical, financial and legal feasibility of the adoption for and refurbishing of the district heating network in Ulaanbaatar as well as its socio-economic and environmental impacts.

To complete our team for the application for the study, the local student/local expert should fulfil the following requirements:

- English or German and Mongolian speaking
- Technical knowledge, preferably about district heating
- Good communication skills
- Preferably experience in project management

The tasks comprise, *inter alia*:

- Representing the consulting team in Ulaanbaatar
- Distributing information to all Stakeholders
- Carrying out specific data collection in Ulaanbaatar

Project duration is 4 Months. Remuneration depends on qualification and success of feasibility study application. Applicants can send their Curriculum Vitae (CV), certificates and Photo to:

info@put-gmbh.de

Deadline for the application is 05.09.2018 CEST.

All Information will be treated confidential and only sent to third parties for application matter. Information of not successful applicants will be deleted within one month after application for the feasibility study.
